

Newton's Laws- Matching Cards

Sir Isaac Newton	
Newton's First Law of Motion	<p>"An object at rest tends to stay at rest and an object in motion tends to stay in motion with the same speed and in the same direction unless acted upon an outside force."</p>
Newton's Second Law of Motion	$F_{\text{net external}} = ma$ <p>Net force on object = mass of object x acceleration</p>
Newton's Third Law of Motion	<p>"For every action, there is an equal and opposite reaction."</p>
